● ABOUT ME

I am a Computer Science student at Khazar University and a Full-Stack Developer at Leops. I focus on developing reliable web applications and efficient internal management tools. My experience covers both frontend and backend development using PHP, Laravel, JavaScript, React, SQL, and Git, along with basic server configuration and deployment. I am motivated to improve my engineering skills and contribute effectively to real-world projects.

● WORK EXPERIENCE

09/01/2026 - CURRENT - BAKU, AZERBAIJAN

FULL STACK DEVELOPER LEOPS

Spec-Taxi: internal management system ([db.spec.taxi](#)), Jun 2026 – Present

- Worked with the engineering team to design, build and release the new version of the platform.
- Developed front-end and back-end features based on requirements from the operations team.
- Refactored legacy code and fixed critical bugs, making the system faster and more reliable.

Assetra: asset and inventory management system (team project, in progress), Jul 2026 – Present

- Building a new inventory management product for the company with a React front end and a Laravel back end.

Leops corporate website ([leops.az](#)), Jan 2026 – Present

- Built and deployed the company website end to end: responsive UI, back-end logic and dynamic content.
- Maintain the site in production: performance optimization, bug fixes and security updates.

Across projects

- Integrated REST APIs and optimized slow database queries.
- Handled server deployments, environment configuration and production troubleshooting.

Stack: PHP, Laravel, JavaScript, React, MySQL, Git, GitLab CI/CD

● PROJECTS

26/06/2026 - 06/08/2026

iTicket clone Event ticketing platform modelled on iTicket.az: event search and filters, interactive seat map, cart with countdown timer and a user profile with tickets, orders, wallet and refunds. Real card payments via the Payriff API through a Node.js/Express service that keeps the secret key server-side and verifies payment status with Payriff; Google sign-in, multi-language UI and dark mode.

Solo · React, React Router, Context API, Node.js, Express, json-server

Link <https://github.com/saidmuradkhan/lticket>

02/05/2026 - 03/06/2026

Carify clone Car import and shipping site modelled on carify-global.com: car catalog, shipping cost calculator, shipment tracking with Google Maps, wishlist, authentication and multi-language support.

Solo · React, React Router, i18next, Axios, Google Maps API

● EDUCATION & TRAINING

15/09/2024 - Current - BAKU, AZERBAIJAN
COMPUTER SCIENCE- KHAZAR UNIVERSITY

Level in EQF: 6

11/11/2025 - Current - BAKU, AZERBAIJAN
FULL STACK WEB DEVELOPMENT- DIV ACADEMY

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, and various modern frontend libraries and UI frameworks.
Backend Development: PHP, Laravel, Node.js/Express, MVC patterns, RESTful API design and database integration.
General Skills: Web architecture, responsive web design, version control (Git/GitHub), and full stack web development workflow.

● SKILLS

Back-end Development | Front-end Development | Web Design & Web Development | Microsoft Powerpoint | Microsoft Word | Google Drive | Microsoft Excel

Version Control
GitLab | GitHub | Git | CI/CD (Gitlab CI)

Programming
PHP | Laravel | JavaScript (ES6+) | React | Node.js | Express | REST APIs | HTML5 | CSS3 | Tailwind CSS | Bootstrap | SQL | Python | C++ | Java

Databases
MySQL | PostgreSQL

Development Tools
Docker | Visual Studio Code | Composer | npm

● LANGUAGE SKILLS

Mother tongue(s): **AZERBAIJANI**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
TURKISH	C2	C2	C1	C1	C2
ENGLISH	B2	B2	B1	B1	B2
